MATERIAL HANDLING

Overhead Cranes & Doors,
Reliable Service 24/7

Local support in your area.
24h 1.866.94.ZELUS

Zelus is the reliable source for all your material handling equipment and overhead door needs. Our team of experienced professionals are dedicated to providing exceptional service and innovative solutions.

Quality Products & Service

24h Emergency Service

With more than 35 experienced Crane & Door Technicians available, you are assured of help when you need it the most. **1.866.94.ZELUS** (93587) will connect you with a qualified service person any time of the day or night.

Inspections, Repairs & Preventive Maintenance

Only experienced and qualified service technicians will be assigned to your scheduled inspections, repairs and preventive maintenance. Ensure the longevity of your equipment, but more importantly, the safety of your employees with regular service.

Engineering

Zelus can design your complete material handling system, using off-the-shelf or custom designed equipment to suit your needs. Our engineering services include:

- Standard & custom crane design
- Free standing & supported runway systems
- Structural review & certification
- Modernization of existing equipment
- Prestart health and safety certification
- Reverse engineering and drawings.

Manufacturing & Installation

Professional project management and state-of-the-art manufacturing ensures the most cost-effective fabrication and installation. We provide:

- Standard & custom crane applications
- Large span box girder cranes with capacities from 1/4 to 300+ ton and spans in excess of 120 feet
- Custom engineered and fabricated hoists, endtrucks, gear boxes, wheels, drums & crane electrical systems
- Jibs, Monorails, Light Rail, & Under Hook attachments
- Magnet systems, scales & displays
- A dedicated installation group.

Overhead Door Systems

Having trouble-free overhead doors and docks are an integral part of keeping your facility running smoothly. Zelus' trusted technicians will:

- Supply and install all types of overhead doors, such as sectional, rolling steel, and rubber doors
- Provide 24h service, 7 days a week
- Inspect and provide preventive maintenance for:
 - dock levelers
 - rolling steel, sectional and rubber door systems
 - gym dividers, curtains and basketball backboard winches.

Fall Protection

Zelus offers a complete selection of safety equipment and accessories. Our product line includes:

- Runway/crane fall protection
- Custom engineered support structures
- Roof top safety fencing
- Engineered tie offs
- Equipment inspections.

Zelus provides expert service 24/7. For a fast, reliable response, call **1.866.94.ZELUS** (93587).
