

Zelus' comprehensive Operator Training course for Mobile Elevated Work Platforms is a cost-effective opportunity to enhance your employee safety, equipment reliability and mitigate risk by having our industry experts as your partner.

Elevate your workforce with our expert training.

Before conducting our practical evaluation, we perform a thorough pre-operational inspection. Recognizing the significance of training your staff to the highest standards for your internal responsibility program, our hands-on training involves employees actively using equipment, gaining familiarity with controls, and establishing a solid foundation before deployment at your worksite.

Protect your people, your equipment and your business!

Our thorough training enhances safety, productivity, and lowers maintenance costs by equipping operators and supervisors with the knowledge of responsibilities, regulations, qualifications, and procedures necessary for safe equipment use.

Let us help you provide a safe working environment in your facility. Contact us today for any additional information or to schedule your next training session.
